

# SONNY'S Unitec Sentinel Car Wash System

Wide-angle surveillance camera (optional).

15-inch sunlight-readable touch screen display with customizable graphic panels and up-sell capabilities.

Dual head outdoor-rated magnetic stripe card reader.

Mars bill acceptor with 1,000 note capacity — accepts \$1, \$5, \$10 and \$20.

IDX multi-coin acceptor, programmable for up to 6 types of coins or tokens.

Choice of single or dual denomination bill dispensing with replaceable cassettes.

Custom graphics wrap available.

SONNY'S Rotating Pay Station Pedestal features a durable UHMW platform that allows operators to turn an existing Unitec Sentinel pay station into a cashier station instantly in order to maximize throughput and sales.

## Sell Monthly Recurring Plans

- Sell monthly plans from your express lanes
- Quickly redeem plan washes from the Sentinel

## Unitec Sentinel Car Wash Entry System

Information pass-thru to your SONNY'S POS uses the same credit card processor as your POS!

- The Sentinel passes all credit card information to the SONNY'S POS that is needed for your site. Whichever credit card processor you choose on your POS will also be used by your Sentinel!

## Gift Cards, Wash Books, and RFID processed by your SONNY'S POS!

- All gift card information is sent to your POS for authorization.
- Whichever gateway you use on your POS will also be used on your Sentinel
- All Wash Book and RFID information is stored in your SONNY'S CarWash Controls database

## Fleet Account Redemptions

- Process Cards & RFID at the Sentinel
- Track, reconcile and manage online

## Coupons entered at the Sentinel will be sent to your POS to check their validity and value

- Both manually entered codes and bar codes will be sent to the POS
- Eliminates the need to program the coupons into the Sentinel itself
- Easily add and control coupons directly through your back office

## Seamless Integration

SONNY'S POS and Tunnel Controller seamlessly integrate with the industry-leading Unitec Sentinel Car Wash Entry System. This touch-screen based payment system simplifies the customer transaction experience and increases throughput with speedy transactions. Its available radio-frequency identification (RFID) technology lets you build volume through subscription-based accounts with credit card processing, handled directly through your SONNY'S POS with no additional fees. The Unitec Sentinel includes standard marketing components with enhanced packages available to suit advanced requirements.
