

Rolling Correlator & Guide Rails

Sonny's Rolling Correlator guides and accurately aligns vehicles onto the conveyor. Durable, constructed of 3in x 3in x 1/4in angle 304 stainless steel with 1-1/2in fiberglass grating for easy cleaning. Greaseless UHMW plastic bushings for maintenance-free operation.

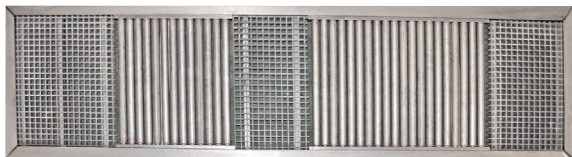

Features

- Safe, simple rolling design allows employees to accurately guide or drive customer vehicles onto the conveyor.
- Durable 1-1/2in stainless steel pipe rollers with solid 3/4in stainless-steel roller shafts for reliable performance.
- Greaseless UHMW plastic bushings for maintenance-free operation.

Guide Rail Length

When ordering your correlator guides, measure the "n" distance from the entrance of the conveyor to the entrance frame of the correlator.

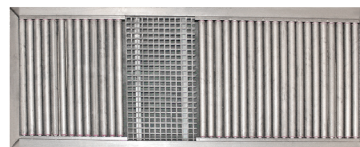

12ft x 3ft 1in Rolling Correlator

The best choice for a wash that has tight or difficult-to-navigate turns. Rough opening to drop in this correlator should not exceed 145-1/2in L x 38in W.

Description	Price
Correlator, 12ft x 3ft Rolling	\$9,149.00
Correlator, 12ft x 4ft Rolling	\$10,896.00

Material ID: CORRELATORS

8ft x 25in 1in Rolling Correlator

The standard for any wash with a straight loading area or an easy wide turn into the wash. Rough opening to drop in this correlator should not exceed 97in L x 26-1/2in W.

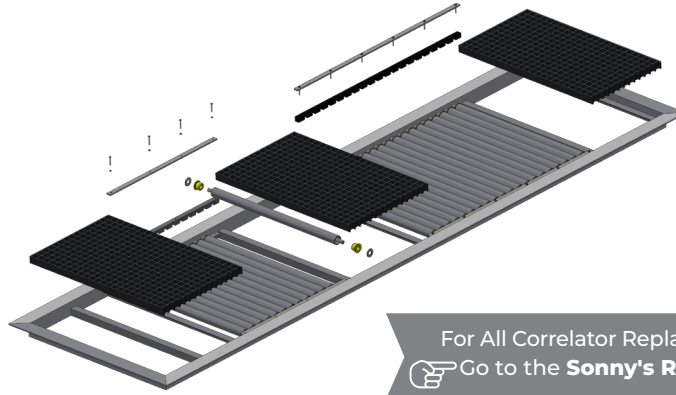

Description	Price
Correlator, 8ft x 25in Rolling	\$5,418.00
Correlator, 13ft x 27in Rolling	\$10,423.00

Material ID: CORRELATORS
