

Air Drying Systems

Sonny's Air Drying Systems are the industry standard for a reason. Reliable, safe, energy-efficient, high-performance drying at the right price. Every car wash represents a unique combination of water, temperature, chemistry, and equipment. We work with you to configure the optimal system to maximize performance and lower utility costs with custom colors to complement your branding.

Features

- Scrolled unibody plastic housing with zinc-plated backward-curved steel impellers welded on both sides for years of trouble-free operation.
- Modular 10HP & 15HP air blowers with fully adjustable mounting brackets and 11 nozzle options to dial in performance specific to your car wash.
- Available AeroGate™ upgrade significantly reduces energy consumption and noise between vehicles without affecting drying performance.

Drying System shown with optional Mammoth™ Dryers and Powder Coating

Drying System Arches

Configure the Perfect Air Drying System

Only Sonny's offers 11 nozzle styles to optimize drying performance specific to your wash. Select nozzle type when ordering blowers. (See next page for options)

Select Your Nozzle

Specifications

Horsepower	10HP Motor	15HP Motor
Air Flow	3,800 CFM	4,800 CFM
Velocity	160MPH	190MPH
Electric	3-Phase 208-460V per Motor	
Certification	RU, CSA, CE Listed	

Description	Price
130in Wide. Holds up to 5 blowers	\$1,474.20
144in Wide. Holds up to 5 blowers	\$1,623.30
166in Wide. Holds up to 5 blowers	\$1,730.40
Braces (Set)	\$492.45

Install up to 5 blowers to 1 arch. Two braces are required to attach 2 arches together.

Blower Nozzle Options

- 1 **Fixed Nozzle** Wider, flat nozzle design disperses and directs air flow to move water off the vehicle's surface.
- 2 **Round Nozzle** Concentrates wind velocity for increased impact to quickly blast water off horizontal surfaces.
- 3 **Quick Set Nozzle** Five angle positions to get optimal performance at every conveyor speed.
- 4/5 **Half V-Nozzle** Maximum coverage, precisely where you need it. Half V-Nozzles split the air to address specific coverage requirements.
- 6 **V-Nozzle** Directs air to strip large volumes of water from the center and down the sides on the first top blower.
- 7 **Double V-Nozzle** Move a large volume of water off the vehicle fast. Double V-Nozzle directs air from the center and down the sides for consistent results at high chain speeds.
- 8 **Flip V-Nozzle** Nozzle splits the air down the center for the most effective drying we've ever achieved on a rear hatch.
- 9 **Flip Nozzle** Pneumatically activated nozzle, flips air flow to strip water from the back of large SUVs.
- 10 **Flip Round Nozzle** Concentrate wind velocity on this final top blower option before it flips to dry rear glass and the hatch down to the license plate.
- 11 **Duck Bill Nozzle** Multiplies the power of two blower producers into a single concentrated stream of air that surpasses the drying capacity by 20%

Sample Air Drying System Configuration

Frame + Braces	Blowers + Nozzles	Total Cost
Two 130 inch Arches and One Sets of Braces	Four 15HP Air Dryers With Fixed Nozzles	TOTAL
\$3,440.85	\$19,622.40	\$23,063.25

Air Drying System Configuration Options

DRYING SYSTEM ARCHES (Sold Separately)	BLOWER AND NOZZLE COMBINATIONS						PRICE		
	15HP Fixed	15HP Round	15HP V Nozzle	V-Blaster 15HP	15HP Flip	15HP Flip	15HP Quick	AeroGate	AeroGate
•								\$4,905.60	\$6,518.40
	•							\$4,922.40	\$6,535.20
		•						\$5,121.90	\$6,733.65
+			•					\$5,568.15	\$7,400.40
				•				\$6,524.70	\$7,196.70
					•			\$5,709.90	\$7,321.65
						•		\$6,111.00	\$6,883.80
