Dual Counterweight Top Brush

Dual Counterweight Top Brush With Double Jog Entrance Wraps and Tire Brush with SFTBG18 Rocker Brush

SONNY'S Dual Counterweight Top Brush - Two brushes in One -

Our clients asked us for a more compact Top Brush that would not only wash horizontal surfaces, but also wash the back window of a pickup truck as well as an SUV. SONNY'S New Dual Counterweight Top Brush starts just 15 inches off the ground to wash the front bumper, grill, along the windshield, and up to the center of the roof line before reversing direction of the brush rotation to chase and follow the car to improve cleaning of hard to reach rear windows and tailgates on today's popular trucks and SUVs. This simple mechanical design delivers incredible cleaning with very little maintenance.

Includes:

- All air kits
- Top Brush

Requires:

- Electric motor controls
- Hydraulic power pack (if installing Tire Seal)

Optional:

- Powder coating (as shown)
- Sonny's TruckBed Concierge sonar retract system
