

# Elephant Ear & Finishing Air Drying Systems

## Why Choose SONNY'S Elephant Ears?

SONNY'S Elephant Ears™ are a compact blower that dries the side of a vehicle from the wheel to the top of the highest SUV – the ideal primary side drying solution for short tunnels as well as a perfect finishing dryer for high volume locations.

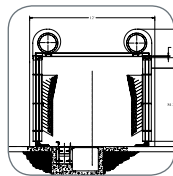

- **Distributes air evenly** for more effective finishing. Scrolled housing and impeller design produce a powerful 4800CFM velocity at the discharge of each 15HP blower into a durable fabric manifold with duplex stitching for longer service life.
- **Adjustable air tubes** move 12 degrees in either direction to dial in the best drying performance at your wash. Available Gator Gate Venturi reduces power consumption over 30% between vehicles.
- **Seamless plastic housing** has no seams or plastic welds that are prone to cracking. Zinc plated steel impellers with backward-curved blades are welded on both sides for durability.

15HP motors are mounted off the ground to avoid recirculation of mist.

Scrolled housing and impeller design increase air flow using centrifugal force for more efficient drying.

Optional extensions available to allow installation in only a 12 foot wide tunnel.

Durable fabric features duplex stitching to ensure longer service life.

Specifications	Inch	Metric
Footprint Length	36in	0.91 m
Unit Height	135in	3.43 m
Air Flow	4,800CFM*	
Velocity	190MPH	
Electric	15HP 3-Phase 208-460V per Motor	

\* CFM value is measured at the blower nozzle

**The Tunnel Experts™**

## Elephant Ear Air Blower

### Includes:

- 15HP Motor
- Scrolled housing
- Zinc Steel impeller and wire grill
- Tube and fabric air manifold

### Requires:

- Blower arch
- Braces (when using more than one arch)

### Optional:

- Gator™ Gate
- SONNY'S TruckBed Concierge sonar retract system

Bag Color*	Motor	Producer color*	Venturi	Venturi Color*	Rotation*	Configuration	
						Single Side	DS/PS Pair
● ● ●	15HP TEFC	● ● ●	Standard	● ● ●	CW/CCW	\$5,234.00	\$10,469.00
● ● ●	15HP TEFC	● ● ●	Gator Gate	● ● ● ●	CW/CCW	\$6,224.00	\$12,450.00

\*Mix and match producer, venturi, & nozzle colors to match your car wash branding and specify clockwise or counterclockwise rotation when ordering.

DS/PS Pair Elephant Ear Air Blowers with Red Producers, Venturis, and Bags

## Duck Bill Blower Nozzle™

### Overview:

SONNY'S Duck Bill Blower Nozzle multiplies the power of two blower producers into a single concentrated stream of air that surpasses the drying capacity of two independent blowers. The Duck Bill is ideal for washes looking to equalize drying consistency from the smallest compact car to the tallest SUV at even the highest chain speeds or to displace water more quickly to eliminate skunk stripe.

### Features:

- Retrofits the nozzle for all 10HP and 15HP Standard and Wet Environment producers
- Reinforced center brace maintains constant performance
- Mounting hardware included

Item #	Description	Price
20014400	Blower, Duck Bill Twin-Nozzle Black Kit	\$145.00
20014401	Blower, Duck Bill Twin-Nozzle Red Kit	\$145.00
20014402	Blower, Duck Bill Twin-Nozzle Blue Kit	\$145.00

## RamJet Air Blower

### Overview:

SONNY'S Ram Jet Finishing Blower strips hard to reach water droplets from the surface of the vehicle. Two 15HP blowers deliver tremendous velocity that is evenly distributed through a single 40 inch durable fabric manifold. This combination provides the necessary coverage to tackle a wide range of vehicle profiles while maintaining the required impact to eliminate water droplets on the vehicle's surface at very fast speeds.

### Features:

- Steel impellers with backward curved blades welded on both sides
- Includes (2) 15HP blowers
- Air tube adjusts 12 degrees in either direction for precise calibration
- Durable fabric manifold distributes air evenly

	Item #	Description	Price
