

Mammoth™ Drying System

Sonny's Mammoth™ Drying System features a compact blower that dries the side of a vehicle from the wheel to the top of the highest SUV. It's the ideal primary side-drying solution for short tunnels, as well as a perfect finishing dryer for high-volume locations.

Features

- Flexible trunks discharge air with precise, powerful velocity and the strength to dry under mirrors without flipping them.
- Full-range performance eliminates water stuck in seams and dries rims and tires for improved dressing application.
- Available AeroGate™ significantly reduces energy consumption and noise between vehicles without affecting drying performance.
