

DCW Top Brush™

Sonny's Dual CounterWeight (DCW) Top Brush™ starts just 15 inches off the ground to wash the front bumper, grill, along the windshield, and up to the center of the roof line before reversing direction of the brush rotation to hug the rear of vehicles. This improves cleaning of those hard-to-reach rear windows and tailgates on both trucks and SUVs.

Features

- Dual CounterWeight is light on the front while shifting weight upon rotation change to hug the rear of the vehicle.
- Simple mechanical design delivers incredible cleaning with very little maintenance.
- Easily expand wash capacity with Wrap-Arounds, Tire brush, and a variety of side brushes to elevate cleaning performance.
