

TBG300™ Tire Brushes

Sonny's TBG300™ Tire & Wheel Brushes provide a high performance frame that allows you to choose the brush that's right for your car wash.

Features

- Choose from 4 rebuildable brush designs for your specific requirements, or upgrade in the future to a new style brush.
- Attach your TBG300 directly underneath a Top Brush or SFM901 Front-to-Back Mitter to increase wash capacity in less space.
- Adjustable extended Banana Peel Guide Rails that deliver lower clearance for safer operation with wider clearance.

Adjustable extended Banana Peel Guide Rails deliver lower clearance for safer operation.

Replace only worn sections of the brush to save money on maintenance with the Unica Hub design.

Redesigned arms provide wider clearance with fewer bearings and grease points.

Cobra, Poodle, Bison, and Ninja Brush available to maximize results in any environment
