# Foaming Rainbar

Rainbar Attachment shown with wings,  
arch sold separately.

## SONNY'S Foaming Rainbar Attachment™ - Smaller Footprint -

Our clients asked us for a foamer that would provide complete coverage and a great customer experience while reducing the amount of foam on the vehicle surface to improve rinsing. SONNY'S Foaming Rainbar easily attaches to an existing arch and requires only two inches of space to deliver a multi-colored sheet of foam with complete coverage where you need it in even the smallest tunnels. Precision foam port control combined with SONNY'S QuickRelease foam generators to improve foaming while controlling chemistry cost with minimal maintenance.
