

High-Pressure Pumping Stations

Exceed the demands of high-pressure cleaning equipment while minimizing maintenance. Sonny's Pumping Stations feature Wanner diaphragm pumps for greater reliability and performance.

Features

- Reliable in-line strainers protect pump and prevent nozzle clogging with overflow manifold to keep the motor dry.
- Each tank is equipped with a 70GPM 1 inch automatic fill valve to ensure constant flow.
- Wanner H25 pump for 20GPM @ 1000PSI or D-35 pump rated for 35GPM @ 1200PSI.
