

Central Vacuum Filter Separators

Engineered and manufactured under exacting production standards, Sonny's filter separators create a powerful cyclone that guides debris into an easy-to-service waste container. Glazed polyester filter bags collect 99.9% of debris at three microns - allowing only clean dry air to pass through the vacuum producer. Multiple sizes available, capable of supporting high-airflow central vacuum systems up to 120HP.

Features

- Heavy gauge stainless steel with continuous welded seams and automotive grade paint with urethane topcoat
- Leak-proof "U" channel gasket expands and contracts for leak-free sealed air chamber
- Virtually unbreakable and rust-proof polypropylene dirt bucket with lockable door latch assembly
- Internally glazed polyester filter bags eliminate clogging. Fast, tool-free removal and replacement

Ensure Vacuum Consistency
Provide A Powerful Airflow
