

POS 21.9

What's New!

Override Button on Digital Queue

The Digital Queue will now have an override button visible beside the Empty Queue button. When pressed, the user is presented with a drop-down menu of all configured overrides. For example: Water-flow to prep gun, open/close entrance doors or additional roller.

IMPROVEMENTS AND FIXES

mPOS

- Added printing Prepaid Washes barcodes from the mPOS.

POS

- Fundraiser codes (SKU) can now be used at the POS with the Discount button.

BACK OFFICE

- Added Employee Number and ADP ID to the Commission and Employee Time Sheet reports.
- Added a Transaction Total line to the Multi-Site reports (Hourly, Daily and Monthly).

BACK OFFICE API

- Added an endpoint to the E-Commerce Web API for existing recurring members to be able to register and manage their accounts through the client's e-commerce application.
- Clients with a Back Office API license can now request an initial export of historical transactions as a collection of transaction details. In order to obtain this please contact the Controls Technical Support team at **800-876-3900** or **ControlsHelpdesk@SonnysDirect.com**
- Search results now display transactions for all License Plates not only Recurring Members.

ECOMMERCE

- Suspend is now configurable to display as an option for customers to suspend their membership through the mywashaccount Ecommerce site.
