

**POS 22.2**

# What's New!

## Back Office Vehicle List

**PATH:** Back Office > Navigation > Visitors > Vehicles

The Vehicles list now provides an option to show Duplicate License Plates when doing a Search.

## Plate Image now displayed on Sonny's Pay Station LPR Override Screen

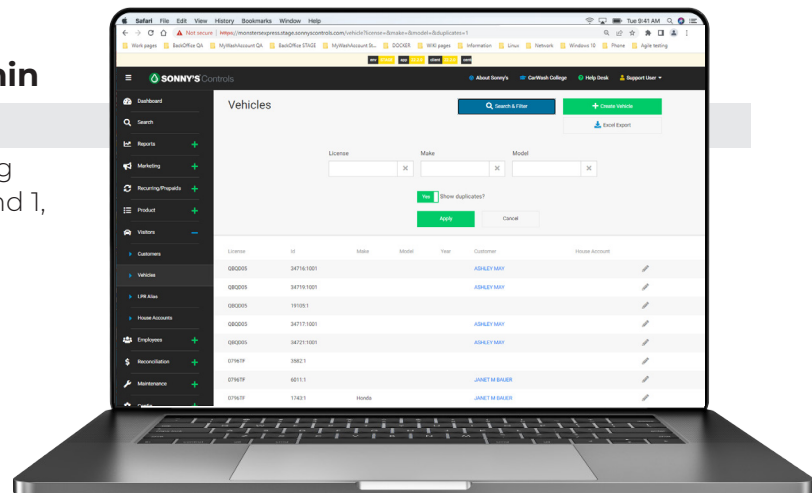

The LPR Override page at the Pay Stations will display both an image of a plate as well as the plate read in text. To support the display of the plate image and text, the keyboard on current LPR Override screen was reduced by 25 percent. Upon employee barcode scan, the plate image and text will appear on the left side of the screen beside the keyboard to manually enter the correction override.

To enable this this feature please contact Controls Technical Support at 800-876-3900 or ControlsHelpDesk@SonnyDirect.com

## SMCC – Running Hours Display in TC Admin

**PATH:** Config > Tunnel Administration > Select Tunnel > SMCC

TC Admin will provide and display a new 'Running Hour' column for the VFD320, VFD630, Tesys Island 1, Tesys Island 2, Tesys Island 3 and Tesys Island 4.

## Back Office Data API – Endpoint for Employee Timesheets

**PATH:** Back Office > Config > Data API Documentation

The BackOffice Data API now provisions Employee Timesheet endpoint that not only returns the same information but supports searching by a date range. The endpoint accepts a parameter for beginning ("startDate") and end date ("endDate") so the clock information can be retrieved for that period of time.

## IMPROVEMENTS AND FIXES

### BACK OFFICE

- Applied mitigation and loading process to the 'Recurring Conversion' report to have it load promptly.
- Added a new column, Alias #, to the 'Redemption Manual Entry' report that shows what the License Plate Recognition (LPR) reads.

### DIGITAL QUEUE

- Digital Queue will now also support the Smart Queue when integrated with the rTC.

### SONNY'S POS

- Applied optimization of data sync processes to minimize the impact of data sync issue for multiple POS systems.

### LAGUNA rTC INTEGRATION ENHANCEMENT

- Increased the number of Washes and Services listed in Wash Packages configurations up to 50.
- Added support for AfterCare Queue.

### OPTSPOT INTEGRATION

- Sonny's Pay Station now supports the collection of phone numbers for OptSpot to build your SMS Text Messaging Marketing List.
