## Express

### Exterior Car Wash

#### Definition:

Express Exterior washes utilize longer tunnels; often over 100ft. Customers pay at an automated greeter and drive themselves onto the conveyor under the guidance of an attendant. These high volume locations approach the market with a value-priced base wash and free self-serve vacuums. They are normally located on streets with high traffic counts, feature multiple greeters and entry lanes, and are the primary business for a given property.

#### Considerations:

Many of the innovations for an Express Exterior are based on technological advancements in equipment, chemicals, and affordable computing power – one of them is not – FREE vacuums. To some it seems insignificant – to others, a loss in revenue. Well, it is about as insignificant to increasing volume and profit at your car wash as “Super Size” or self-serve fountain drinks are in fast food.

### Express 50 Ft.

**Property Area:**  
15,820 sq. ft.

### Express 100 Ft.

**Property Area:**  
36,000 sq. ft.

## Sonny's Vacuum

### Canopy Systems

**Overview:**

SONNY'S Vacuum Canopy is the perfect solution to all your vacuuming needs. It's simple design allows for easy installation and maintenance. Customers will have easy access to your vacuum stations and will be sheltered from harsh elements. The boom design keeps hoses securely off the ground providing better access to both sides of the vehicle and reducing wear and tear. Choose from different boom styles, canopy colors, drop kits, attachments and piping.

Longer boom reach makes it even easier to vacuum cargo areas.
