# Sonny's POS 20.3 – What's New!

E-Commerce

Theme Color Customization

Ecommerce Theme This feature will allow the client to customize colors from My Wash Account, so that it matches their brand color scheme. Once the changes are made, they are saved and automatically applied to the My Wash Account.

Before & After:

Ecommerce Managing Tags

Ecommerce Manage Tags feature will provide more power to the customer allowing them to handle their recurring tags/RFIDs and license plates. With this feature the customer can add, cancel and activate tags.

Back Office Features

Regions

Regions is a master grouping of the sites that a client has. Every client will start with a default global Region, which will hold all sites to begin with. Once you create a Region you can enable a site to it. This process will then remove the site from the Region and attach to the new Region.

Region Name *

| Global Region | Used on Reports and functionalities related to Sites. |

Region Code *

| GLOBAL | The code should be **unique**. |

Associated Sites *

SPLASH CW JFK (**JFK**)	Add
SCW CWY (**CWY**)	Add
SPLASH CW GS (**GEY**)	Add
SPLASH CW LAN (**LAN**)	Associated
SPLASH CW ROG (**ROG**)	Associated
SPLASH CONGO (**CONGO**)	Add
SPLASH MORRILTON (**MOR**)	Associated

Select the sites associated to this region.
A site can only be associated to **one** region.
If you want to **disassociate** a site from this region, you must associate it with another region before.

BackOffice user permissions will now allow clients to grant or prevent a user from accessing a Region and sites within the Region. Reports will also reflect the Regions and sites the user has access to.

Back Office Access Control
Name: **Alexys Albarran**, Username: **aalbarran**

Accessible Sites

GLOBAL Alpha

× SPLASH CW ROG   × SPLASH CW JFK   × SCW CWY
× SPLASH CONGO

By clicking the Regions buttons you will be able to add a group of Sites associated with the Region to list of Accessible Sites.

Permissions Templates

Load from a Template

By selecting an template from the available templates it will load a set of pre-configured permissions chosen to help out during setup. It is **not** required to choose any template and, even if you choose one, the permission set for each user is completely custom.

Permissions

Site Categories List   Grant

Allows access for users to view the list of department categories.

IMPROVEMENTS

Sales Overview

Regions
× GLOBAL

Sites
× ROD × LAN × ROG × MOR

Employees
All Employees

Apply

Devices
All Devices

Access to the Region configuration requires the Regions license and the user must be granted access to the Regions section.

Regions   Active

Will enable a site grouping into a geographical or strategical client region.

Sales Overview Version 2

Sales Overview version 2 is a logical change on the way that some of the prepaid redemptions are viewed. In version 1, the current Sales Overview, they are presented before the Net Amount which means they are viewed as a liability against the Gross Amount, hence impacting the Net. In version 2, new Sales Overview, they are presented after the Net Amount which means that they are viewed as a liability against the Net Amount. In both cases the Total Amount and Total Deposited does not change.

Sales	Average	Quantity	Total
Gross Sales	$22.20	4202	$93,277.67
Discounts	($14.24)	416	($5,924.02)

Time Based Promotions

This feature will enable the toggle to "Combine Promotions" on the Time-Based Promotion section from BackOffice and allow the POS and SPS to process the TBP with any other discount. This was previously prevented.

From the BackOffice it is a simple toggle:

| Can combine with other Discounts? | Yes | Can or cannot be combined with any other Discount. |
