

So you're tight on space, but you want the durability and performance of a central vacuum system? Meet AutoVac's Jet Pac – a compact, all-in-one industrial vacuum system. It's perfect for operations with single phase power and limited floor space.

The Jet Pac provides serious vacuum performance for up to two simultaneous users. Its precision engineered Direct Drive motor is stacked directly above the filter separator. The result is outstanding vacuum performance in a small footprint. And the Jet Pac is easy to install and engineered for years of reliable service with very little maintenance.

JET PAC

Single or Three Phase	Model: Standard Performance, 3600 RPM*				
Total Simultaneous Users 15"x1 1/2" Dia. Vac Hose	Motor	Vacuum Frame Dimensions	Weight lbs.	Decibels at 10ft.	Order #
1 User	1	20"	50	30	C640-0001
2 Users	2	20"	56	30	C640-0021

DEBRIS SECTION

Up to 2 simultaneous users

Electrical Requirements

Single 60Hz

115/230 volts AC

Please consult your AutoVac professional for the following applications:
 Canada – 575 Volt customers
 For 50Hz • High altitude above 3,000'

FEATURES AND BENEFITS

CENTRIFUGAL EXHAUSTER

- Jet Pac ships ready to install, simply connect power and secure bolts
- Compact design fits in tight work areas
- Constructed of durable 14 gauge steel with epoxy primer and urethane finish
- Intake and exhaust openings are directional controlled to accelerate airflow and improve suction
- Precision engineered impellers are dynamically balanced using an electronic balance analyzer

FILTRATION & DEBRIS COLLECTION

- Lip seal gaskets provide positive leak-proof seal
- Extremely durable 5-gallon polypropylene dirt container
- Latches on dirt container
- Filter cartridge are internally glazed to prevent clogging
- No tools required to remove or replace filter cartridge
