Sonny's Control Retrofit

Retrofit your old DRB Tunnel Watch system without re-wiring your tunnel!

Sonny's Tunnel Controller Retrofit integration allows operators with existing Wash Pilot and DRB Tunnel Watch (4 Relay) to use the Sonny's Controls Back Office software without the need of removing and replacing existing hardware in the equipment room. Get on the industry's leading cloud-based software.

- Leverage Sonny's Pay Stations, POS, and Back Office

- Keep your 3rd party motor control center and relays

- Program and manage Tunnel Functions from Sonny's Back Office

- Reduced electrician and installation cost

- Reduced down-time

- Small footprint plug-n-play Retrofit system

- Access to STC inputs on color HMI Touch Screen
