# Buff N' Dry

Buff-n-Dry with Entrance Wraps, Top and Side Elephant Ear Dryers, Gator Gates & Tire Seal Machine

Dual Counterweight Buff-n-Dry with Entrance Wraps Shown

## Buff-n-Dry Machine

SONNY'S Buff-n-Dry machine, installed after your dryers and featuring the exclusive new Wick-A-Way™ material, is the "Oh Wow!" you've been waiting for. Residual water droplets are stripped, including the back of the vehicle, surfaces gently buffed, and customer satisfaction skyrockets. This unit eliminates labor, increases speed of service, reduces laundry and can be installed with an online tire shine machine.

## Dual Counterweight Buff-n-Dry Machine

SONNY'S New Dual Counterweight Buff-n-Dry machine allows operators to offer one of the hottest extra services in the industry when every inch is at a premium. This unit features a low maintenance, mechanical, dual counterweight that increases the range of motion from the front bumper to the rear bumper, drying grills, under SUV rear spoilers, and everything in between; while occupying less tunnel length. Available with entrance Wrap-Arounds for a drier experience, this component is also functional for wash applications at slower chain speeds.

## Specifications

	Inches	Metric
